Boot Camp Project 1 Group Agreements

What is your project about?

We are creating a Dinner and a Movie (Quarantine Edition). On the left drop down menu you will choose the ingredient of any recipe you had (example-Chicken Thigh, Steak, Potatoes) on the right drop down menu you will choose either top trending movies of the day or top trending movies of the week. When you're done you click search and a list of recipes containing that ingredient and the top movies will pop up below

What tech are you planning on using? (Libs, APIs etc)

APIs, HTML, Javascript, JQuery, CSS, Bootstrap, Ajax

What role(s) will everyone on the team hold (if working in a team):

we will have different roles that need to be accomplished up on trello, and we can pick and choose which role we want to do

How often will you have meetings? How long? (if working in a team):

Twice a week for 2 hours at minimum – can add more time and meet more if decided, can also meet outside of group meeting as well if needed

How will you keep track of tasks?

Trello, open communication

What if someone misses a deadline? (if working in a team):

Have to have an additional meeting about missed deadline,

Open communication through slack is **extremely** important, always keep everyone updated

What happens if someone misses a meeting? What is their responsibility? The team's responsibility? (if working in a team):

Will need to go to one of the other team members and get filled in on what was missed, maybe have an extra meeting (quick 10-15 minutes) to see what was missed

How does each team member like to receive feedback? (if working in a team):

Public – be nice

Private – be as blunt as honest as possible

What if there is friction between members? How will you address it? (if working in a team):

Private conversation with person 1 on 1, even if on slack, if a group have a conversation and try to settle things out

Other Group Agreements:
